FOUR-SIDED PLASTIC BASE ROLL PALLET

SKU 01 402 01

Four Sided Split Gate Plastic Base Mesh Roll Cage

This 4-sided nestable A-frame roll pallet is manufactured from high-quality steel and has a bright zinc plate finish. The three sides plus the two-piece split gate have a 50 x 50mm mesh infill structure. A hinged plastic drop-down base is fitted as standard, the main base structure is rod infill. The roll container is fitted with the larger 125mm diameter castors, two fixed and two swivels, to improve manoeuvrability. This is a stock item available for immediate despatch.

Key Features

- Simple and easy to use design to be operated by a single person.
- Stable door style split gates for easy access to stowed products; access to higher packed products with the bottom gate close reduces the risk of spilling merchandiseWardrobe doors on one long side.
- ·Plastic base provides added protection and cleanliness for stored products – for example, laundry and delicate linens.
- Space-saving – sides, gate and base fold flush to the back panel allowing for roll cages to nestle together
- ·Easiest way to transport goods and products from a warehouse/distribution environment direct to a final destination such as a retail store.
- Bright zinc plate finish.
